OSHA
III. Immediate Personal Protection

Odor: None
NFPA Flammability: 0

IV. Supplemental Information

Inhalation: Any exposure may cause severe irritation including breathing sensation, tearing, redness, and swelling. Can cause gastrointestinal discomfort including nausea, vomiting, laryngitis, and diarrhea.

Skin: Repetitive exposure may cause de-fatting and irritate the skin.

Chemical Interactions: Avoid contact with acids and oxidizing agents.

OSHA Hazard Classification: Health hazard. Harmful if swallowed. Irritating to eyes, skin, and respiratory system.

II. PRODUCT IDENTIFICATION

Product Name: FreshAWL® FUEL-WASH™
Synonyms: None
Chemical Family: Cleaning Compound
OSHA CAS#: SARA 313

COMPONENT

RQ # | TWA | STEL* | WEEL*
NE None | Organo-imino Complex | None | NE | NE | NE

Other than those listed, there are no ingredients with ACGIH exposure limits present at 1% or more, and no known "TWA"= Time Weighted Average; STEL= Short Term Exposure Limit; WEEL= Workplace Employee Exposure Level. NE = Not evaluated. NA = Not applicable.

HMS Hazard Ratings: Health 1 Fire 0 Reactivity 0 Other: C (Goggles, gloves)

NFPA 704 Hazard Ratings: Health 1 Flammability 0 Reactivity 0 Special N/A

Hazard Rating: Least: 0 Slight: 1 Moderate: 2 High: 3 Extreme: 4

“NO” in Delayed Fire hazard category indicates lack of a spontaneous combustion hazard

Immediate Health Effects

Inhalation-Toxicity: None Known
Inhalation-Irritation: None Known
Skin Contact: Repetitive exposure may de-fat, dry and irritate the skin.
Skin Absorption: Not a recognized hazard.
Eye Contact: Exposure may cause severe irritation including a burning sensation, tearing, redness and swelling.
Ingestion-Irritation: Can cause gastrointestinal discomfort including nausea, vomiting, laryngitis, and diarrhea.
Ingestion-Toxicity: None Known
Acute Target Organ Toxicity: Liver function impaired

Carcinogenicity: This product is not known or reported to be carcinogenic by any reference source including IARC, OSHA, NTP or EPA

Reproductive and Developmental Toxicity: None known

Sensitization: None known
Inhalation: None known

General prolonged or repeated exposure may cause eye, liver, kidney or lung damage.

Chronic Target Organ Toxicity: Skin, respiratory tract, kidney, liver.

IV. EMERGENCY AND FIRST-AID PROCEDURES

SKIN: Flush with water–prolonged contact can cause irritation or allergic dermatitis.

EYES: Flush with water for at least 15 minutes or until irritation dissipates.

INHALATION: Immediately remove person to fresh air. Keep person calm. If not breathing, give artificial respiration. If not breathing give oxygen.

INGESTION: Seek medical attention immediately. If person is conscious give water to dilute stomach contents.

V. FIREFIGHTING MEASURES

FLASH POINT (°F): >200F
FLAMMABLE LIMITS: LEL NONE UEL NONE
EXTINGUISHING MEDIA: WATER X ALCOHOL FOAM X CO2 X DRY CHEMICAL X

Do not allow contaminated water to enter storm drains or open waterways

FIRE FIGHTING INSTRUCTIONS: Use normal firefighting equipment including a NIOSH approved self-contained breathing apparatus (SCBA). Use water to cool containers. Product may float on water if spilled.

VI. ACCIDENTAL RELEASE MEASURES

Personal Protection for Emergency Situations: Evacuate the area of all unnecessary personnel.

Spill Mitigation Procedures

Air Release: Vapors may be suppressed by the use of water fog. Contain all liquid for treatment and/or disposal as a (potential) hazardous waste. US regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of stipulated quantities (RQ). US Coast Guard National Response Center is 800-424-8802.

Water Release: This material is soluble in water. Contain all liquid for treatment and/or disposal as a (potential) hazardous waste. If not contaminated with other chemicals, this can be disposed of in a sanitary sewer.

Land Release: Create a dike or trench to contain materials. Absorb spill, or pump to liquid storage for disposal in a sanitary sewer or landfill. Decontaminate all clothing and the spill area using detergent and flush with large volume of water; contain water for disposal in sanitary sewer.

Additional Spill Information: Stop source of spill as soon as possible and notify appropriate personnel. Utilize emergency response personal protection equipment prior to the start of any response. Evacuate all non-essential personnel. Dispose of spill residues per guidelines under Section XIII, Disposal Considerations.

VII. HANDLING AND STORAGE

Handling: Do not take internally. Avoid contact with skin, eyes and clothing. Upon contact with skin or eyes, wash with water. Avoid breathing vapor or mist. Electrically ground all equipment when handling this product. Retained residue may make empty containers hazardous. USE CAUTION!
Storage: Keep container closed. Store in a cool, ventilated area away from oxidizers and acids.

VIII. EXPOSURE CONTROLS AND PERSONAL PROTECTION:

Ventilation: Local exhaust ventilation or other engineering controls are normally not required when handling this product. Rather, use general exhaust ventilation if that is sufficient for general worker safety and comfort. A NIOSH/MSHA approved air supplied respirator is advised in the absence of adequate ventilation. Protective Equipment for routine use of Product

Respiratory Protection: See previous paragraph. Material should be handled with proper ventilation. For open use of the product, minimize exposed wet area.

Respirator Type(s): Air purifying respirators should not be used in oxygen deficient or IDLH atmospheres or if exposure concentrations exceed ten (10) times the published limit.

Skin: Wear impervious gloves (butyl rubber, Viton, etc.) to avoid skin contact. Practice good industrial hygiene.

Eyes: When using this product for cleaning, safety eyewear is recommended. When transferring this product from container to container wearing goggles or face shield is recommended to avoid possible splash.

Protective Clothing Type: Imperious. NIOSH Level Immediately Dangerous to Life or Health: Not Available.

IX. PHYSICAL PROPERTIES

Physical State: Liquid
Color: Slight Yellow
Odor: Characteristic
Melting Point: 13°F
Boiling Point (°F): 200°F
Percent Volatiles (By Weight): 1%

Vapor Pressure (mm Hg): UNKNOWN
Evaporation Rate (Butyl acetate = 1) Slow
Vapor Density (Air=1): >1
pH: Water dispersion typically about 10.5 pH
Solubility in Water: SOLUBLE
Appearance and Odor: CLEAR, FOAMY SOLUTION

X. REACTIVITY DATA

Stability: STABLE
Conditions to Avoid: NONE

Hazardous Polymerization: WILL NOT OCCUR
Conditions to Avoid: NONE

Incompatibility: ACIDS

Hazardous Combustion Products: Oxides of Carbon and Nitrogen

XI. TOXICOLOGICAL INFORMATION

Aquatic Toxicity:
LC-50/96-rainbow trout: 5,000 ppm

Component Animal Toxicology
Oral LD50 value mg/kg: very high
Dermal LD50 value mg/kg: unknown
Inhalation LC50: unknown

Component Fetal Effects: unknown
Tests with lab animals have not resulted in birth defects, testicular damage and sperm damage from one of the trace residues

Eye Irritation: This material may be slightly irritating, prolonged exposure may be damaging.

Mutagenicity: NONE

Carcinogenicity: This chemical is not known or reported to be carcinogenic by any reference source including IARC or OSHA or NTP, or EPA.

XII. ECOLOGICAL INFORMATION

Ecological Toxicity Values:
Environmental Fate: Expected to be inherently biodegradable from studies on similar materials.
Environmental Toxicity: No information found

XIII. DISPOSAL INFORMATION:
WASTE DISPOSAL INFORMATION: Comply with Local, State and Federal Regulations. Avoid environmental contamination from the use of this material. The user of this material has the responsibility to dispose of unused material, residues, and containers in compliance with all relevant local, state and federal laws.

Waste Disposal Summary: This product has none of the characteristics of a hazardous waste. Disposal Methods: Dispose of in accordance with local, state and federal regulations.

Disposal preferred in sanitary sewer.

Components subject to land ban restrictions: No components subject to land ban restrictions. Do not release to environment without appropriate permits.

XIV. TRANSPORTATION INFORMATION

Proper Shipping Name: Cleaning Compound Chemical, Not DOT Regulated
Hazard Classification: None

Labels Required per 49CFR 172.101: NONE
Size for “Limited quantity” per 49 CFR 173.150-155: None established
Reportable quantity (“RQ”) per 49 CFR 172.101: Not applicable

XV. REGULATORY INFORMATION

United States:
Toxic Substances Control Act (TSCA): The components of this product are listed on the TSCA inventory of Existing Chemical Substances
Superfund Amendments and Reauthorization Act (SARA) Title III: See section III of this MSDS

XVII. ADDITIONAL INFORMATION

This Material Safety Data Sheet (MSDS) has been prepared in compliance with the Federal OSHA Hazard Communication Standard 29 CFR 1910.1200 and ANSI Z400.1-2004. This information should be provided to all who will use, handle, store, transport, or otherwise be exposed to this product. FreshAWL believes this information to be reliable and up to date as of this publication date, but make no warranty that it is. If this MSDS is more than three years old, you should contact the supplier to make sure the information is still current.
