**EXTINGUISHING MEDIA**: WATER X ALCOHOL FOAM X CO2 X DRY CHEMICAL X

Do not allow contaminated water to enter storm drains or open waterways.

**FIRE FIGHTING INSTRUCTIONS**: Use normal firefighting equipment including a NIOSH approved self-contained breathing apparatus (SCBA). Use water to cool containers. Product may float on water if spilled.

VI. ACCIDENTAL RELEASE MEASURES

**Personal Protection for Emergency Situations**: Evacuate the area of all unnecessary personnel.

**Spill Mitigation Procedures**

**Air Release**: Vapors may be suppressed by the use of water fog. Contain all liquid for treatment and/or disposal as a (potential) hazardous waste. US regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of stipulated quantities (RQ). US Coast Guard National Response Center is 800-424-8802.

**Water Release**: This material is soluble in water. Contain all liquid for treatment and/or disposal as a (potential) hazardous waste. If not contaminated with other chemicals, this can be disposed of in a sanitary sewer.

**Land Release**: Create a dike or trench to contain materials. Absorb spill, or pump to liquid storage for disposal in a sanitary sewer or landfill. Decontaminate all clothing and the spill area using detergent and flush with large amounts of water; contain water for disposal in sanitary sewer.

**Additional Spill Information**: Stop source of spill as soon as possible and notify appropriate personnel. Utilize emergency response personal protection equipment prior to the start of any response. Evacuate all non-essential personnel. Dispose of spill residues per guidelines under Section XIII, Disposal Considerations.
