OSHA In inhalation Immediate
OSHA Delayed Odor
Synonyms: Chemical
Spill Do EXTINGUISHING V.
INGESTION: INHALATION: EYES
Supplemental Inhalation: Sensitization: Carcinogenicity: Prolonged Ingestion
NFPA Immediate Human Medical
Chemical Particular Hazard
I. IDENTIFICATION
Hazard Identification: Health hazard. Harmful if swallowed. Irritating to eyes, skin, and respiratory system.
Hazard Description: Moderate health hazard. Severe eye irritant. Ingestion hazard.
VII. HANDLING AND STORAGE
Handling: Do not take internally. Avoid contact with skin, eyes and clothing. Upon contact with skin or eyes, wash with water. Avoid breathing vapor or mist. Electrically ground all equipment when handling this product. Retained residue may make empty containers hazardous. USE CAUTION!
Storage: Keep container closed. Store in a cool, ventilated area away from oxidizers and acids.

VIII. EXPOSURE CONTROLS AND PERSONAL PROTECTION
Ventilation: Local exhaust ventilation or other engineering controls are normally not required when handling this product. Rather, use general exhaust ventilation if that is sufficient for general worker safety and comfort. A NIOSH/MSHA approved air supplied respirator is recommended when using this product. Suitable respiratory protection should be used. Where air filtering respirators are used, the filter type should be appropriate for the dust generated during this process. Protective clothing should be worn when handling or cleaning this product. Contact with this product may require the use of protective gloves, eye protection, and respiratory protection.
Respiratory Protection: see previous paragraph. Material should be handled with proper ventilation. For open use of the product, minimize exposed wet area.
Respirator Type(s): Air-purifying respirators should not be used in oxygen deficient or IDLH atmospheres or if exposure concentrations exceed ten (10) times the published limit.

Component Fetal Effects: Tests with lab animals have not resulted in birth defects, testicular damage or sperm damage from this product.
Skin Irritation: This material may be slightly irritant.
Eye Irritation: This material may be slightly irritant, prolonged exposure may be damaging.
Reproductive and Developmental Toxicity: See “Component fetal effects” above in this section.
Mutagenicity: None
Carcinogenicity: None, including reporting by IARC< OSHA< NTP or EPA.

XII. ECOLOGICAL INFORMATION

Ecological Toxicity Values:
Environmental Fate:
Expected to be inherently biodegradable from studies on similar materials.
Environmental Toxicity:
No information found

XIII. DISPOSAL INFORMATION
Waste Disposal Summary: This product has none of the characteristics of a hazardous waste. Disposal Methods: Dispose of in accordance with local, state and federal regulations.

XIV. TRANSPORTATION INFORMATION
Proper Shipping Name: Cleaning Compound Chemical, Not DOT Regulated
Hazard Classification: None

XV. REGULATORY INFORMATION

United States:
Toxic Substances Control Act (TSCA): The components of this product are listed on the TSCA Inventory of Existing Chemical Substances
Superfund Amendments and Reauthorization Act (SARA) Title III: See section III of this MSDS
Hazard Categories Sections 311/312 (40CFR 370.2):
- Health: NO Chronic NO Physical: Not Regulated
- Emergency Planning and Community Right to Know (40CFR 355, App A): Not applicable
- Reportable Quantity (40CFR 302.4): None

XVI. ADDITIONAL INFORMATION
This Material Safety Data Sheet (MSDS) has been prepared in compliance with the Federal OSHA Hazard Communication Standard 29 CFR 1910.1200 and ANSI Z400 1-2004. This information should be provided to all who will use, handle, store, transport, or otherwise be exposed to this product. FreshAWL believes this information to be reliable and up to date as of this publication date, but make no warranty that it is. If this MSDS is more than three years old, you should contact the supplier to make sure the information is still current.
